

# 11 Light-duty Fire Truck

The fire truck featuring quick alarm response, quick rescue, and quick fire extinguishing applies to early fire extinguishing in districts, counties, and townships

## Product features

### Flexibility

- Compact structure: length <6 m, width <2 m, small body, suitable for street and village roads
- 4WD off-road: wading depth of 600 mm, trench width of 500 mm, surmounting of 300 mm

### Efficient fire extinguishment

- High-pressure spray: high-pressure spray flow of SANY high-pressure spraying system, with strong penetration, high efficiency and water saving performance
- Rapid water outflow: one-click pump start, minimalist operation

### Multifunctional rescue

- Configure a large storage compartment that can carry forcible entry tools, mechanically-driven pumps, rescue stretchers, medical first-aid kits, and other equipment

## Technical parameters

Product Model	PW02	PM35	Mountain rescue vehicle
Total mass	4400kg	10050kg	17150kg
Chassis	4×4	Qingling	HOWO
Crew	2+3	3+3	2+4
Rated flow of fire pump	≥3L/s	≥40L/s	≥40L/s
Flow of spray nozzle (Flow of fire monitor)	≥2L/s	≥32L/s	≥32L/s
